### 3. Installer begins downloading.

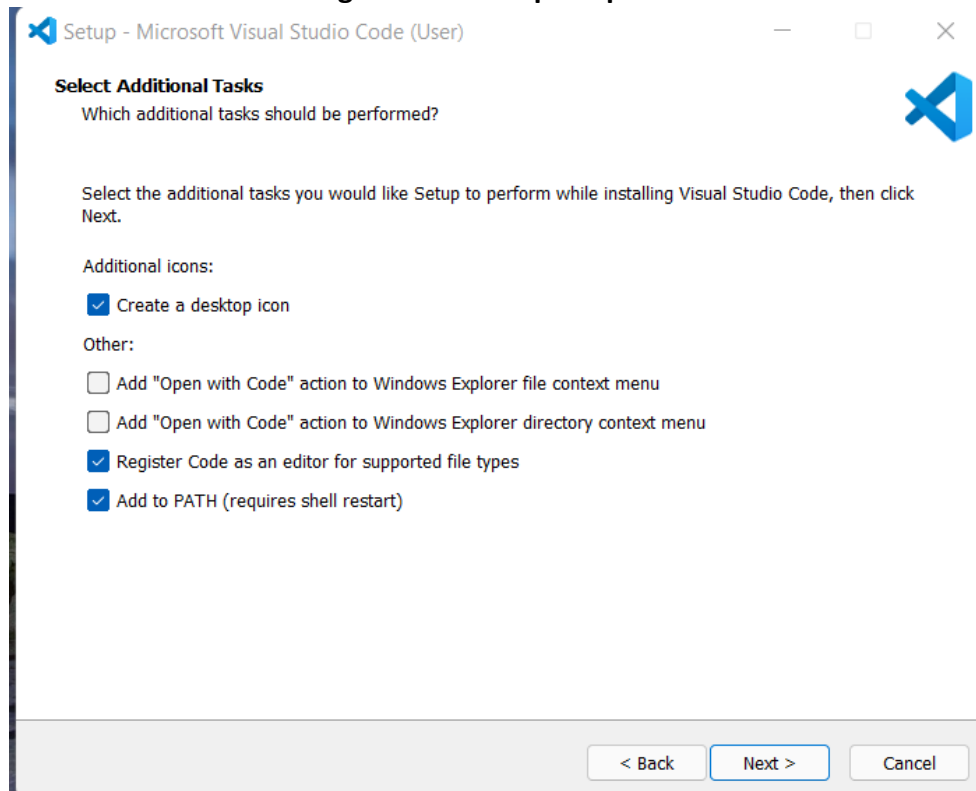

The screenshot shows the Visual Studio Code website. On the left is a navigation menu with links: Overview, SETUP, GET STARTED, USER GUIDE, SOURCE CONTROL, TERMINAL, LANGUAGES, NODE.JS / JAVASCRIPT, TYPESCRIPT, PYTHON, JAVA, C++, DOCKER, DATA SCIENCE, AZURE, and REMOTE. The 'Overview' page is active, featuring a green banner that says 'Thanks for downloading VS Code for Windows!' with links for 'direct download link' and 'click to take survey'. Below the banner is the 'Getting Started' section, which describes VS Code as a lightweight but powerful source code editor. A code editor snippet shows JavaScript code for an Express.js server. Below this is the 'Visual Studio Code in Action' section. At the bottom, a Windows taskbar shows the 'VSCodeUserSetup....exe' installer running, with a progress bar at 6.5/88.3 MB and 3 minutes left.

### 4. Run the installer after downloading is complete.

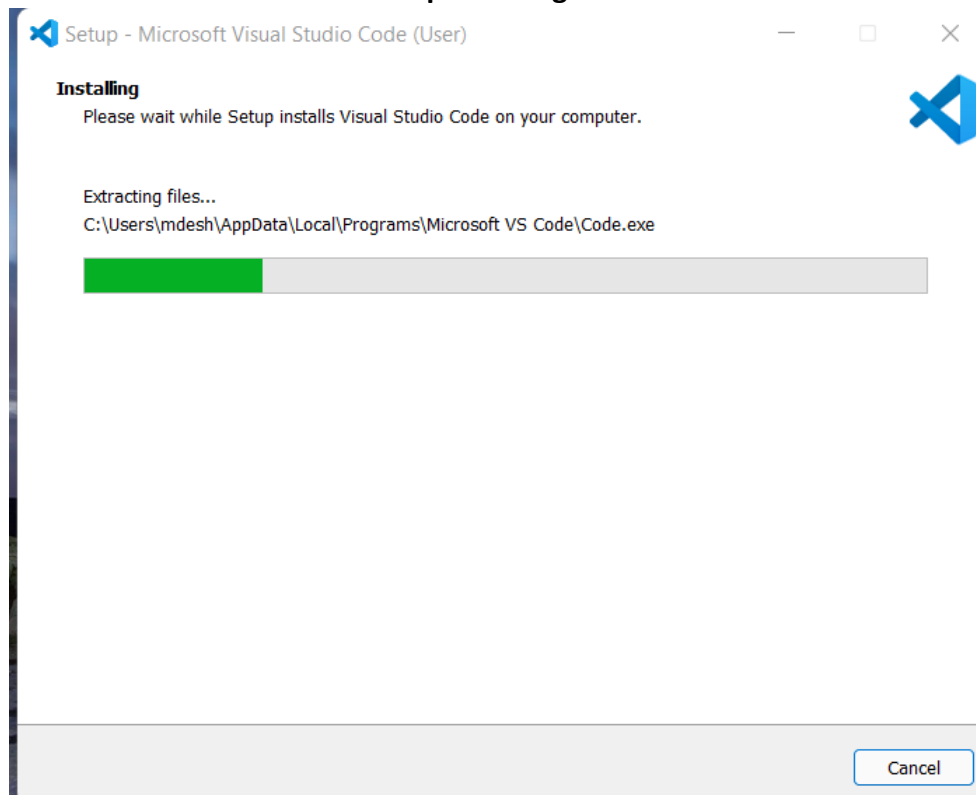

The screenshot shows the 'Setup - Microsoft Visual Studio Code (User)' window. The 'License Agreement' screen is displayed, asking the user to read the terms before continuing. The text states: 'Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.' Below this is a scrollable text area containing the license details: 'This license applies to the Visual Studio Code product. Source Code for Visual Studio Code is available at <https://github.com/Microsoft/vscode> under the MIT license agreement at <https://github.com/microsoft/vscode/blob/main/LICENSE.txt>. Additional license information can be found in our FAQ at <https://code.visualstudio.com/docs/supporting/faq>.' Below the text are two radio buttons: 'I accept the agreement' (which is selected) and 'I do not accept the agreement'. At the bottom right are 'Next >' and 'Cancel' buttons.

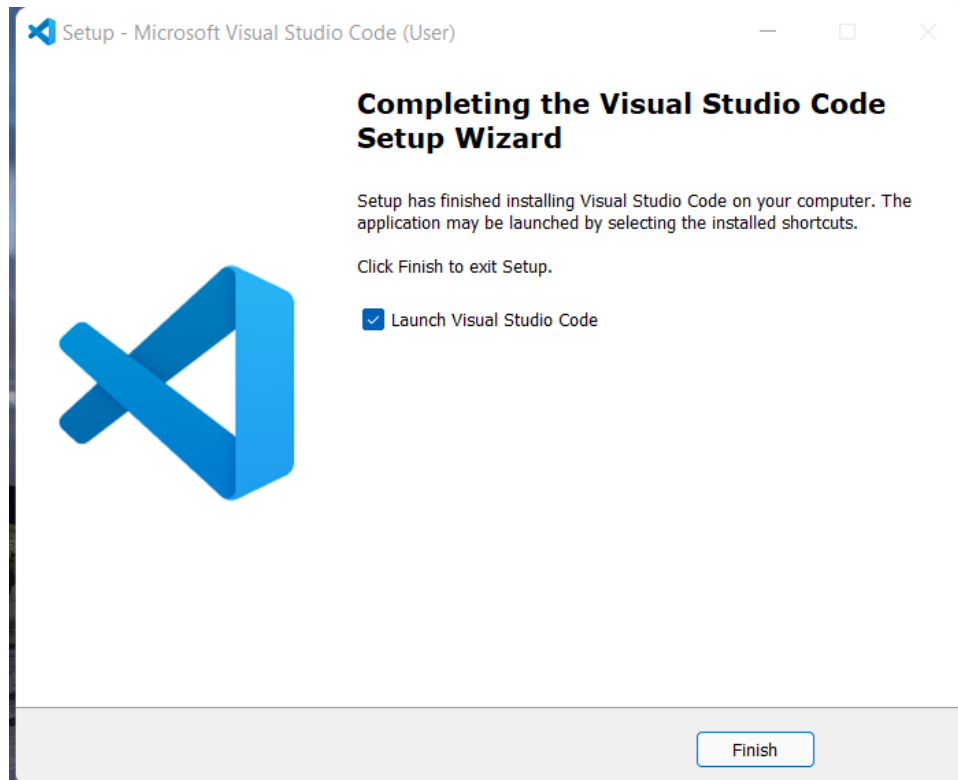

## 5. Follow click through installation prompts.

## 6. Wait until installation is processing.

## 7. VS Code installation is done.

## 8. Launch VS Code
